

# UPSKILL WITH THE WORLD CUSTOMS ORGANIZATION ACADEMY

With the increasingly dynamic global trade and customs landscape especially in times of crisis, it is critical for businesses and professionals involved in cross-border trade of goods to make informed quality global trade decisions for trade efficiencies and resilience.

As the global centre of customs expertise, the **World Customs Organization (WCO)** has set up the WCO Academy, which provides e-learning courses covering the core customs and global trade topics for students in the private sector. Developed by subject matter experts from the WCO, these courses provide value to both businesses and professionals alike as follows:

## VALUE OF A COMPETENT TEAM TO MANAGE INTERNATIONAL CUSTOMS AND TRADE ISSUES FOR BUSINESSES:

1. Increased competitiveness through duty cost savings and shipment lead time efficiencies
2. Mitigate risk of non-compliance with customs and trade regulations and related penalties for business sustainability
3. Being more effective in interactions with customs authorities

## VALUE OF UPSKILLING AS A GLOBAL TRADE AND CUSTOMS PROFESSIONAL:

1. Enhance technical understanding of customs and trade topics
2. Increase ability to make informed quality decisions about its global trade and customs strategies and operations for the business
3. Take charge of your own career development
4. Be certified with **WCO Academy's Certificate of Achievement**

To find out more details about the courses and registration process, you can either scan the QR Code or [click here](#).

For organisations which wish to offer WCO e-learning courses for multiple employees and require customised training packages, please reach out to us at [contact@actradeadvisory.com](mailto:contact@actradeadvisory.com). Our team will get back to you as soon as we can to discuss further. We wish you an enriching learning experience!
