

Our Cookie Policy

We utilise cookies which are small text files that are placed on your computer when you visit this site. In general, they are widely used in order to make websites work, or work more efficiently, as well as to provide information to the owners of the sites. The use of cookies is now standard for most websites.

There are also other online identification technologies such as web beacons, or pixels which this website may potentially deploy to provide users with an improved user experience.

By perusing this website, you consent to the deployment of cookies and such identification technologies.

Our cookie policy applies alongside our privacy policy, whereby the protection of your privacy and personal data is of utmost importance to us and we apply every reasonable care to do so.
